

4th Annual Cardiovascular Emergencies Symposium

India's Only National Conference
on Cardiovascular Emergencies

A stylized map of India is centered on the page, overlaid with the text "ACES 26". The map is dark blue. To the left of the map is a network diagram of black dots connected by dashed lines. To the right is a white ECG waveform on a grid background, with leads V2, V3, V4, V5, and V6 labeled.

ACES 26

Theme:
People. Patients. Providers

6-8 February 2026

Welcome to ACES 26 !

Cardiovascular emergencies don't wait—and neither should your skills. ACES 2026 is where sharp minds, fast hands, and real-world decision-making come together. Designed by emergency physicians, for frontline clinicians, this symposium cuts through theory and delivers what actually matters in the ED. From high-yield national CME sessions to hands-on ECG and echocardiography workshops, you'll learn practical, immediately usable skills to manage chest pain, shock, arrhythmias, and cardiac arrest with confidence. Add to that resident-centric poster sessions, peer learning, and networking with leaders in emergency and cardiovascular care—and you have an event that upgrades not just your knowledge, but your mindset. Think fast. **Think cardiac. Think ACES 2026.**

Prof (Dr) Debendra K Tripathy
Organising Chairperson
ACES 26

ACES 26

Meet the team

Hosted by:

Department of Trauma & Emergency, AIIMS Raipur

In collaboration with:

Emergency Medicine Association of India (EMA)

Chief Patron:

Lt Gen Ashok Jindal (retd)
Executive Director & CEO
AIIMS Raipur

Scientific Advisor:

Prof (Dr) Sagar Galwankar
President,
ACEE-India and INDUSEM

Organising Secretary:

Dr Naman Agrawal
Assistant Prof, T&E

Joint Secretary cum Treasurer:

Dr Roshan Mathew
Assistant Prof, T&E

Workshop coordinator:

Dr Pallavi Shende
Assistant Prof, T&E

CME Coordinator:

Dr Biraj Majumdar
Assistant Prof, T&E

Co-Patron:

Prof (Dr) Eli Mohapatra
Dean (Academics)
AIIMS Raipur

Organising Chair:

Prof (Dr) D K Tripathy
Prof & HOD, T&E,
AIIMS Raipur

Co-Organising Secy:

Dr Santosh K Rathia
Associate Prof, T&E

Scientific coordinator:

Dr Chandan K Dey
Associate Prof, T&E

National coordinator:

Dr Varun Anand
Additional Prof, T&E

Organising Team:

Dr D Kavın . Dr Aniket Patel . Dr Pradeep Daniel . Dr Sachin Kamboj . Dr Farshad .
Dr Sachin Ambure . Dr Ramesh . Dr Sai Archana . Dr Akila . Dr Deepu Thomas .
Dr Milan M . Dr Sai Pavan . Mr Prakash Sabani . Mr Murali

Day 1: 6th Feb

ECG workshop for nurses

Venue : LT-1, new admin building

Time : 9 am - 12 pm

**Only
40 Seats**

- Quick, practical approach for emergencies
- Recognise dangers- STEMI and life-threatening arrhythmias
- Hands-on case ECGs - Learn with real emergency examples
- ECG to action - What to do and when to escalate
- Boost your confidence!

+91-9505794950

Dr Sai Pavan
Drop a WhatsApp query

Who should attend:

Nurses, paramedics, EMS, technicians working
in Emergency/ICU/wards

Nursing students

Day 1: 6th Feb

Emergency ECHO workshop for doctors

Time: 9 am onwards

- Echo basics for emergencies – focused views for rapid decision-making
- From image to action – Echo-guided management at the bedside
- Life-saving findings – Tamponade, massive PE, LV failure, and RV strain
- Hands-on scanning – Probe handling, image optimization

And more...

LIMITED SEATS

+91-7032829738

Dr Pradeep Daniel
Drop a WhatsApp query

Who should attend:

Residents from Emergency Medicine, Anesthesiology, Medicine, Pediatrics
Residents from Family Medicine, Pulmonary Medicine, Cardiology
Emergency care physicians, ICU physicians
Practising Physicians, General Practitioners
Interns

Day 2 : 7th Feb

National Cardiovascular Emergencies CME

Venue : LT-1, new admin building

Time : 8:30 am onwards

Learn from experts in a patient-centric model of lectures, covering...

1 Myocardial ischemia

Learn topics on chest pain and myocardial infarction. Nuances in biomarkers, thrombolysis, killer patterns and much more!

2 Tricky ECG rhythms

Delve into the intricacies and subtleties of ECG analysis

3 Heart failure

Acute resuscitation, autonomic dysfunction, vasopressors and inotropic agents, and more!

4 Resuscitation pearls

Cutting edge discussion on advanced procedures and artificial intelligence in resuscitation in ED... exciting stuff!

5 Mix bag

Cardiac trauma, biomarkers, congenital disorders and more

Present your work as posters:

+91-9636604134

Dr Sai Archana
Drop a WhatsApp query

Register for workshop + CME for adding more value

Day 3 : 8th Feb

Gamified ECG workshop

Venue : Physiology Seminar room

Time : 9 am onwards

**Only
40 Seats**

- Learn ECGs through challenges, levels, and live competitions
- Rapid ECG interpretation under time pressure, just like the ED
- Team-based battles – Solve ECG cases, earn points
- High-risk patterns hidden in everyday tracings
- India's first gamified ECG workshop

+91-8668710192

Dr Sachin Ambure
Drop a WhatsApp query

Who should attend:

Residents from Emergency Medicine, Anesthesiology, Medicine, Pediatrics

Residents from Family Medicine, Pulmonary Medicine, Cardiology

Emergency care physicians, ICU physicians

Practising Physicians, General Practitioners

Interns

ACES 26

WHO SHOULD ATTEND

01. Doctors

02. Students

03. Residents

04. Interns

05. Nurses

06. Anyone interested in learning EM
