

## ENCON 2011

### International Conference on "Waves of Change in Pediatric Emergencies" - 24th & 25th June, 2011

Globally Children are one third of our population and the most important asset of our Nation. However, the health of these children is Jeopardised by Life Threatening Emergencies. Children requiring Emergency care have unique and special needs and Nurses working in pediatric unit experiences the challenge of caring these children. It is important that we become familiar with the available evidence and its application in providing care to Children.

In a view to "Be a Change and Bring a Change in Life of Little Children" the 3rd International Conference on "Waves of Change in Pediatric Emergencies" was organized by Department of Pediatric Sri Gokulam College of Nursing, Salem, Tamilnadu with aegis of INDO- US Academic Council for Emergency for Trauma (ACET) on 24th & 25th June, 2011 at Salem.

The Scientific sessions were held by Dr.R.Radhika, Senior Consultant, Kanchi Kamakoti Child Trust Hospital, Chennai, Dr.Sagar Galwankar, Faculty of Global Health & Emergency Medicine, University of South Florida, Dr. Mangala Bharathi, Asst. Professor in Neonatology, Institute of Child Health, Chennai, Dr. Senthil Kumaran, Incharge of Emergency & Critical

care, Sri Gokulam Hospital, Dr. N. Saravanan, Pediatric Surgeon, Sri Gokulam Hospital, Mrs. Sundari Edwin, HOD, Child Health Nursing, CMC, Vellore, Dr. Assumma Beevi, Principal, Malabar Institute of Medical Sciences and Mr. Hammam Akram, Faculty, Institute of Nursing, MOH, Sharjah.

Around 275 delegates of various States of India & Other Countries participated. The conference promoted hands on skills workshops focusing on paediatric emergencies and highlighted on the needs of skilled personnel in the field of paediatric emergency. The conference concluded with the focus to conduct the next programme on Trauma Emergencies The role of Nurses in the coming months.

Dr. Sagar Galwankar felicitated by Mrs. Nirmala, Principal, Gokulam College of Nursing

## Academic Medicine Sentinel

*"Proclaiming and Promoting Academic Leadership"*

### From the Desk of Editor

Dear Colleagues,

Warm greetings from Delhi -INDUSEM 2011.

I take the honor of writing this editorial as the country passes through various tremors like scams (2G, CWG, black money) on one side, LOKPAL & Gandhian Hazare's protest against corruption on the other side. Terror attack and bomb blast in Bombay which has become part of life of every Indian citizen but the courage of every citizen of Mumbai was well appreciated. The level of preparedness this time in every aspect like team response was much better than the previous episode of 26/11, thanks to the unity and solidarity of every Mumbaikar. If this is the resilience level of every Indian I am sure nobody can shake the country.

The development in the field of medical sciences like Common Entrance Test (NEET-UG/PG) across the nation is welcome as a solution to prevent students from taking umpteen number of entrance exams. The Emergency medicine has been established as a separate academic discipline in almost every medical colleges and MD (Emergency Medicine) programme have been started in a few medical colleges across the country with diverse curriculum. The Emergency Medicine training as part of the UG training has been incorporated by various medical universities in our country. We need to fine tune the science of Emergency medicine as we take it to the stake holders especially the students which we shall be doing in INDUSEM 2011 in Delhi.

I welcome the Vice Chancellors of Health Universities, Heads of Institutions, Deans, Policy makers and Administrators to participate along with their nominees (Academic Councilors) to New Delhi this year at AIIMS for the ACET meeting during INDUSEM 2011. This year meeting would facilitate the process of MD programme as well setting up the academic EM department in all medical colleges in the country. We shall discuss the pros & cons of issues like Faculty recruitment and FDP as per the guidelines issued by MCI.

I invite the students of medical and paramedical fraternities for the INDUSEM 2011 to gain knowledge in the evidence based academic science of Emergency Medicine, gain skills and learn the basics of research and take forward the science in the interest of our nation.

JAIHIND.

## CAPITAL-EM 2011

CAPITAL-EM 2011 (CAPITAL Emergency Medicine & Trauma Collaborative-Jammu & Kashmir, Delhi, Punjab, Haryana and Uttaranchal) was held from 1st and 2nd April 2011 and hosted by the Maharishi Markandeshwar University, Mullana (Ambala). This maiden regional summit was themed as "Shaping Future in Trauma & Emergency", and was dedicated to Trauma and Emergency Sciences. The CAPITAL chapter of the INDO-US Emergency Medicine was the result of the dedicated efforts of the INDO-US partnership, which exists at many levels and in many areas.

The CAPITAL-EM 2011 had been a great academic extravaganza attended by 400 delegates and many academic leaders from various medical colleges across this region. A pre-summit workshop was held on Airway Ventilation on Mannequin involving experts from education segments and was very well attended and appreciated by the participants, followed by intercollegiate journal club competition and an exhaustive

academic discussion on various topics of interest in the field of emergency medicine sciences. The conference provided a platform for exchange of scientific information, ideas and experiences on current and emerging trends in pre-hospital care, emergency room care, critical care and multidisciplinary approach to management of trauma victims. The conference also provided a great opportunity of learning to the postgraduate students and an excellent opportunity for networking to enhance their potential for National and International research & collaboration in the field of emergency medicine and trauma care. Inclusion of the Himachal Pradesh will further expand the scope of CAPITAL-EM Zone. The next meeting "CAPITAL-EM 2012" will be in Ram Manohar Lohia Hospital, New Delhi with the theme "Pediatric critical care in emergency". We wish that our efforts will continue to ensure an effective sharing of knowledge with renowned experts from India and abroad.

## MAHA-EM 2011

### The birth of MAHA-EM Summit:

The SONO-SCHOOL 2010 at B.J. Medical College opened the doors for a larger scale spread of awareness of Emergency Medicine in Pune and a new concept of organizing an Emergency Medicine Summit in Maharashtra nurtured. This would trigger the interest in everybody towards Emergency Medicine development. The EMTECH (Emergency Medicine & Trauma Education Center For Health) planned to initiate the MAHA-EM (Maharashtra Emergency Medicine Summit) summit from 2011.

It was planned that this summit shall be hosted by different cities in the state of Maharashtra annually and in the process, the awareness would be inculcated amongst the medical fraternity across Maharashtra.

Thus, B.J. Medical College in collaboration with S.K. Navale Medical College hosted the maiden MAHA-EM 2011, and plans to eventually pass on the baton to the other colleges sequentially throughout Maharashtra. The theme for this maiden summit was "Fostering interest in Emergency Medicine".

### The MAHA-EM Summit:

The first Maharashtra & Goa Emergency medicine Summit, viz. MAHA-EM 2011 was organized by the B.J. Medical College, Pune and co-hosted by S.K. Navale Medical College, Pune. It was held from 11<sup>th</sup> February to 13<sup>th</sup> February 2011. The theme for this introductory summit was "Fostering Interest in Emergency Medicine".

The Maharashtra chapter of the INDO-US Emergency Medicine was the result of the dedicated efforts of the INDO-US partnership, which exists at many levels and in many areas. MAHA-EM was the maiden Emergency Medicine Summit in Maharashtra imparting and exchanging quality knowledge in acute care.

The Navale Medical College hosted the pre-summit meet on 11<sup>th</sup> February 2011 focusing on faculty development programme. There was a joint conference between the various representatives of the different Medical institutions across Pune and Mumbai. An in-depth discussion on the development of Emergency Medicine in Maharashtra took place. It included faculty from the central institutes in India and also from USA.

The B.J. Medical College & Sassoon General Hospital, Pune conducted the summit on the next two days from 12<sup>th</sup>-13<sup>th</sup> February 2011. The highlights of the meet were focused lectures and discussions on the following topics:

- Controversies in emergency neurosciences • ECG marathon
- Eye in the emergency medicine • Blast injuries • Public resilience
- Thrombolysis Vs PTCA in Acute Coronary Syndromes • Abdominal pain in pregnancy • Diaphragmatic injuries • Toxicology

The summit was attended by over 600 delegates from different parts of Maharashtra & Goa. The summit was supported by the

MUHS (Maharashtra University of Health Sciences), Nashik and Indian Medical Association, Pune branch. It was accredited by the Maharashtra Medical Council, Mumbai.

Several distinguished faculty from the prominent Medical Institutes were invited, viz. AIIMS, New Delhi; PGI, Chandigarh; Vellore; Coimbatore; Ambala, etc. The summit had 11 invited faculties from different parts of India and 3 foreign faculties from CDC, Atlanta, Florida. It also had 23 National faculties from Pune & other parts of Maharashtra.

The Vice-President of the CDC, Atlanta, Dr. Vikas Kapil and the Vice-Chancellor of MUHS, Dr. Arun Jamkar were the chief guests for the event. This summit was widely covered in the local media and an overwhelming response was obtained from the medical fraternity across Pune and Maharashtra.

The highlights of the summit were the opportunity to nurture new talent across the state. This included the inter-collegiate competitions on new research ideas posters and the Journal Club competition. It was very intensely contested between 11 colleges across Maharashtra.

Thus, the first of its kind, MAHA-EM 2011 was an outstanding success and indeed sowed the seeds of a future where Emergency Medicine has unmatched importance. This summit hopes to continue the trend and will be hosted by different institutes across the state of Maharashtra & Goa in the years to come.
