"Proclaiming and Promoting Academic Leadership"

Special issue on INDUSEM 2015

11th INDO-US World Congress of Emergency Medicine: The 11th World Congress celebrated 10 Years of INDUSEM. The 11th edition was hosted by the Medical Colleges in the national capital region of New Delhi. Lead by AIIMS and Santosh University, many agencies of the Governments of USA and India were partners in this grand academic conclave. Around 100 + International Faculties participated in this event. More than 3000 delegates attended this World Congress at 15 Venues over 8 days with over 250 hours of education. The Walkathon marked the official beginning of the 11th INDO-US World Congress of Emergency Medicine. Prevention of Injury was the mission when Dr. Pritam Munde Honorable Member of Parliament flagged off the Injury Prevention Walkathon at AIIMS on 27th September 2015.

The 'Jeevan Jyoti Rashtriya Abhiyan' and 'Jan Suraksha Abhiyan' will be carried over as a mission to the rest of the state involving more and more of health care personnel and the other key stake holders.

From the Desk of Editor

Dear friends and colleagues

It gives me great pride & pleasure to release this issue of TEAMS newsletter, as it is INDUSEM 2015 special issue.

The 11th World Congress celebrated 10 Years of INDUSEM. The 11th edition was hosted by the Medical Colleges in the national capital region of New Delhi. It is 10 years since INDUSEM was instituted with an interest to develop and foster the science of Emergency Medicine in our country. It was a landmark event in nation building in the healthcare sector especially Emergency and Acute care. This summit aims at creating leaders to support the governments initiative in developing road maps and infrastructures to create a better Emergency and Trauma care system in our country.

A Special Philatelic Cover and Stamp was issued by India Post to commemorate this occasion. This was a matter of great honor and pride for INDUSEM. It recognizes the hard work of the INDUSEM Team. INDUSEM launched Four major initiatives namely PRADHAN-BHARTI, EMA-INDIA, FLAME, & NETWORK-ASIA. Special Policy making sessions were held to kick start the process to bring the Bhartiya Emergency Medicine for All Act (BHEMAA)

The INDUSEM 2015 was a Proud moment for all the leaders who are together since its inception and the other members who were committed to this specialty. This movement could build a TEAM of likeminded people across the nation from academic institutions to implement the ways and means of creating, developing, sustaining this process for further improvement with a only motto of creating healthcare system of emergency and acute care for the needy population in times of crisis. We have worked hard in taking this specialty to more heights so that the common man's life is saved at his doorstep or on the road. We feel proud and accomplished as the front runners of founding this specialty but do remember "Miles to go before we sleep" hence we strive hard to keep pace with the international community in improving this specialty and maintain Good Clinical Practice to serve with the best methods for the common man.

JAIHIND.
