"Proclaiming and Promoting Academic Leadership"

Dr. P. D. Patil

Chancellor,

Dr. D. Y. Patil Vidyapeeth, Pune

President,

Dr. D. Y. Patil Vidyapeeth Society, Pune

Dr. P. D. Patil is the architect of Pune's academic complex of the Pratishthan and has transformed the vision Dr. D. Y. Patil into reality by establishing many quality institutions within a span of less than a decade. The credit of rapid and meteoric rise of the Pune complex goes only to Dr. P. D. Patil. He takes a personal interest in all the facets of the fifty-three institutes in and around Pune. It is his dedication and dynamism that has elevated the institutions in the Pune complex to international standard.

He is an avid traveler and has applied his experience for modernization of all the institutes. The stupendous success of the Pune complex is credited to his meticulous planning and implementation. His humane and calm approach towards addressing problems and his quick decision-making ability are his distinct qualities responsible for the rapid progress of the Complex.

In recognition of his invaluable contribution in the field of education, Dr.P.D.Patil has been bestowed with numerous awards such as,

- "Samaj Shri Award" - 2005 by Indian Council of Management Executive Mumbai.
- "Rashtriya Ekta Award"- by Global Economic Council-2004 at the hands of his Excellency Shri Madan Lal Khurana, Governor of Rajasthan.
- "Bhartiya Chikitsak Ratan Award" by all India Business Development Association.
- "Man of The Year-2003"- by American Biographical Institute, Inc.
- "Morya Puraskar-2003"- by Chinchwad Devasthan Trust.

From the Desk of Editor

Dear friends and colleagues,

Emergency Department of a Hospital is the first point of contact for a patient seeking acute care at a hospital. Emergency medicine as a clinical specialty, as an academic curriculum and as a distinct department within the hospital are relatively nascent ideas in this country.

A sudden serious clinical event can distort the cognitive judgment of any individual would manage to rush the victim to the nearest health centre and expect the healthcare professionals present there to *handle* the situation thereafter and do *whatever it takes* to restore the victim's health.

Emergency care however, is a far more complex subject deeply engaging a confluence of empathy, presence of mind, equipment, precise clinical knowledge and trained procedural skills.

The reputation of the hospital is dependent on the quality of care it provides and more so in Emergency Situations. The most important question of whether emergency care provided even in paid private setups is really benchmarked for quality; remains a major challenge.

We INDUSEM is committed not only in patient care but also involving ourselves in policy decisions by the government in healthcare especially preventive healthcare, pre-hospital system, trauma care systems, acute care, and developing systems for the above needs aside the policy makers.

The Emergency Departments Quality Certification Program in partnership with National Accreditation Board of Hospitals and Health Care (NABH) Providers paper EMERALD is published.

The BENGALURU group are gearing up for a great event this year in October 2016 which is a landmark event in nation building in the healthcare sector especially Emergency and Acute care. This summit aims at creating leaders to support the governments initiative in developing road maps and infrastructures to create a better Emergency and Trauma care system in our country.

Wish to meet you all in person in INDUSEM 2016 at BENGALURU
